South Dakota – Meta Proposal

Custodians: Meta proposes that the above search terms be run on each agency’s custodial documents (including email and other custodial data sources), and relevant non-custodial data sources, that cover the entire period from January 1, 2012, to April 1, 2024, which encompasses the same time period from which Plaintiffs seek discovery, and have plead as the “Relevant Time[]” in Plaintiffs’ Complaint. *See* ECF No. 969; MDL Compl. ¶ 19 (alleging a “Relevant Time[]” that starts “no later than 2012”).

Meta proposes that the search terms set forth above should be run against at least the custodians listed below. Custodians designated with an asterisk (*) have been affirmatively proposed and agreed to by the relevant state agency during the course of the Parties’ negotiations. To the extent that the State’s productions reveal that the custodians below do not cover the relevant time period or all relevant topics for each agency, the State and/or agency should propose additional custodians to Meta, and Meta reserves the right to select additional custodians.

South Dakota's Proposal[s]

SDBOR Exhibit 1A

- SDBOR's current proposal for search terms are Meta's revised proposed search terms from November 22, 2024, but eliminating "minor", "ACE", and "Snap" and then using Purview filtering tools to narrow down that data set.
- Twenty-three (23) evidence custodians have been identified across the entire Board of Regents system which includes the central office, six institutions of post-secondary education, and two specialty schools.
- Both Meta's original proposed search terms from November 22, 2024, and SDBOR's proposed search terms were ran against three identified custodians in the central office. These searches resulted in 168,094 and 165,830 hits, respectively. Searches have not yet been conducted on the campus level.
